

Call for Papers:

Waste-to-Resources 2017

Energy and resources from MSW and organic waste
7th International Symposium MBT, MRF & Recycling

Having participants from up to 40 countries in previous years, Waste-to-Resources is world's largest conference on MBT & MRF. The combination of conference and commercial exhibition will make Waste-to-Resources 2017 again a prime event for operators, authorities, consultants and technology providers. The conference will cover topics like

- MBT & MRF in different countries
- Targets, legal aspects, boundary values
- Waste treatment technologies compared
- Ground breaking waste treatment and recovery technologies
- Recycling and reuse of materials and devices
- Competition and material (waste) streams
- Functionality, economic efficiency & life cycle balance
- Experience with new and rebuilt plants
- New developments in machine and system engineering
- Anaerobic digestion of organic waste fractions
- Energy recovery by RDF power plants, gasification, liquefaction and more
- Conditioning, use and sale of MBT & MRF output fractions (e.g. RDF, metals)
- Latest sorting technologies
- Process control and analytics
- Emissions and their treatment
- Bio-/Pyro and Hydro- char (HTC)
- Disposal of residues from waste treatment
- Fires in waste treatment plants: detection, extinguishing, prevention, insurance
- Other interesting topics

Waste-to-Resources will be held in Hanover (Germany) from the 16th to 18th of May 2017. If you are interested to become an author at Waste-to-Resources, please submit the following information until the 2nd of December to info@wasteconsult.de

- Title and qualified abstract (1-2 pages) of the paper (English or German only)
- Institution, Name, address, Phone, FAX and personal email-address

The selection of the papers and the symposium programme will be finalised in January. The leading authors / presenters (one person per paper) of the accepted papers for oral presentations will get free access to the conference, which also includes lunch, dinner and the conference proceedings. Transport and accommodation have to be self-organised and paid by the authors.

Papers for the conference proceedings have to be in English or German. The PowerPoint presentations on the conference must be in English, but due to the simultaneous translation, the oral presentation can be held in French or German as well.

Hanover has an international airport and is easy to reach by train, car and airplane.
